# Qualified Review Report

---

- EY concluded qualified review conclusion based on the following:
  1. Assets earmarked for sale to Alinma Fund still presented in Asset Held for Sale (“HFS”)
  2. Depreciation for these assets were not recorded by SR 105 million because these assets were classified in HFS in January 2017
  3. EY wants to take a conservative position to reclassify assets to property and equipment
- JODC is of the opinion;
  1. The transaction is a sale and operating leaseback hence it requires more time to conclude keeping in view the holistic business approach while looking at the whole contract suite, we are reviewing the transaction with external auditor, legal firms and other independent accounting firms
  2. Thus it is premature at this point in time to take a conservative call
